The NJPA Satisfies Local Bid Requirements in Most States.

Every state government/education entity has a purchasing level at which public agencies are required to "go out to bid." NJPA has nationally solicited, evaluated and awarded contracts through a competitive bidding process on behalf of its Members. These contracts can be leveraged by municipalities in most states under the authority of NJPA's enabling legislation and your state's procurement laws and/or Joint Powers Authority. These laws allow access to NJPA's contracts and procurement process to satisfy your local/state bidding requirements, avoiding duplication of the process.

The NJPA Provides a Streamline Purchase Process.

After you have become a member, you select the contract of choice from the NJPA purchasing catalog and contact the Vendor directly for specific product, service, ordering and delivery information. Billing is executed by the servicing Vendor or manufacturer. NJPA monitors contract compliance by the Vendor to ensure a high level of service, quality of goods and general customer satisfaction. Prior to executing the purchase order, it would be your responsibility to review and accept the general terms and conditions of the specific RFP of interest and at that point, execute the purchase order directly with the awarded Vendor. Your Membership allows the NJPA Board of Directors and NJPA staff to facilitate the bid and procurement responsibilities on your behalf.
