

## AssetWorks SASP Surplus Management Software

AssetWorks SASP Surplus Management Software (SMS) is the only application that includes comprehensive functionality for the unique needs of the GSA Surplus Property Program for State Agencies for Surplus Property (SASP). This software solution will save you time with Form 123 processing, tracking donee registration, tracking compliance and more.

With features including receiving, donation processing, inspection notifications and comprehensive reporting options, AssetWorks SASP SMS tracks and automates every aspect of the federal surplus program.

**Utilization & Compliance**

**Validation**

AssetWorks SASP SMS integrates with all other SMS modules to provide a completely integrated solution that moves surplus efficiently and profitably. All of the modules communicate to provide seamless access, minimize reentry, and maximize audit trails and transaction efficiency. The bottom line is increased profitability and effective surplus property management.

## Product Highlights

### GSA INTEGRATION

Automatically download your Form 123s right into our software. Mark as received when they show up!

### TOTAL ACCOUNT MANAGEMENT

Manage all donee details including eligibility, contact management and suspension tracking in one place.

### COMPLIANCE AUTOMATION

Based on internal rules, the software automatically generates emails to accounts for compliance notification, inspection planning, continued use and more. All required documentation is stored in one place.

### COMPREHENSIVE REPORTING

Over/short, Federal Form 3040, compliance and all standard forms and reporting built into the software. Ad hoc and user-defined reports also included.

### FLEXIBLE MODULES

Buy only what you need with AssetWorks Surplus Management modules. You also have the option to completely integrate with state surplus systems in one easy-to-use application.

## Surplus Management Modules

Integrated Data Management For Maximum Workflow Efficiency

### Warehouse Management

AssetWorks Warehouse Management module is built to accommodate the special needs of surplus property. Whether you're tracking one small facility or multiple distribution centers, our scalable solution improves inventory accuracy and minimizes processing times. From the surplus transfer, to online receiving and tracking, through any of our optional disposal methods, our functionality caters to the unique requirements of the Surplus Warehouse.

### Federal Surplus

The Federal Surplus module automates and tracks all aspects of the GSA Federal Surplus program. Transfers, Warehouse, Donations, Utilization & Compliance, Account Management and Comprehensive Reporting combine seamlessly to allow you to maximize your returns with userfriendly workflow automation.

- Integrated Form 123 processing
- GSA lot transfer, receiving and donation tracking
- Comprehensive utilization and compliance tracking
- Inspection notifications and tracking
- Automated email notification for continued use and other required documentation
- Detailed eligibility and Contact Management functionality
- Standard and custom invoice forms
- Over/Short, Federal Form 3040, Compliance, Ad hoc, User-defined and Standard reports

### Software as a Service (SaaS)

AssetWorks hosts our solutions online, working closely with you on configuration and setup, and providing all server hardware and database administration. All you need is a connection to the Internet and you are up and running. We become your technology partner, providing prompt and reliable service with a standing money back guarantee. You get enterprise class software with no additional load on your IT department for deployment, system administration, backups or support.
