

FiRE Receiving

Your Challenges

- Not taking advantage of your purchasing and receiving system because it isn't accessible where you need it
- Workflows are focused on the financial rather than the physical transaction
- Using paper as intermediary documentation only to enter it later in your IWMS

What's in it for you?

- View orders by vendor, or scan incoming packages for rapid identification
- Accurately track received items
- Reject unsuitable items and document with photos
- Instantly disburse received items, or...
- Scan a FiRE WO, Phase, Capital Project, or Warehouse to disburse appropriate items to the requestor
- Coming in 2017 – Reverse Disburse items by WO, Phase, CP, or Warehouse
- Coming in 2017 – Electronic signature capture for transactions

What You Get

- FiRE Receiving – Receive
- FiRE Receiving – Disburse
- FiRE Receiving – Reverse Disburse (2017)

As part of a broader Integrated Workplace Management System (IWMS), FiRE Receiving is seamlessly integrated with an extensive range of facilities management tools under a single, unified software platform.

AssetWorks offers completeness of vision in a truly federated solution that helps facilities and real estate professionals like you address the challenges they face every day:

- Real Estate and Property Management
- Space Management
- Operations and Maintenance
- Capital Planning and Project Management
- Energy Management
