

AssetWORKS | Quest LEARNING MANAGEMENT SYSTEM

Make the most of your software

Making the most of your fleet technology investment can be challenging, but the right training makes all the difference. **AssetWorks Quest**, our comprehensive learning management system, is designed to help your team learn quickly, adopt new tools with confidence, and improve overall efficiency.

With the hands-on, structured courses in Quest, your team will gain the skills they need to navigate your fleet software, automate processes, and make data-driven decisions that improve operations. Whether you're onboarding new employees or looking to enhance existing knowledge, our training ensures everyone stays on the same page and gets the most out of your software. With Quest, you will benefit from:

- Self-paced learning
- Hands-on fleet software experience
- Fleet software onboarding
- Fleet management certifications
- And more

Quest is available to all AssetWorks FleetFocus FA, M5, and EAM customers. The courses within Quest are regularly updated, so your team can continue learning as they grow with the software.

? Does your team need accessible software training?

? Are you frequently onboarding new employees?
